RE: Designation of " Bristol South GLC" solar site as "Preferred Site" under Rule 5.100

Dear Commissioners,

Green lantern ("the Developer") has proposed to locate a net-metered solar array, designated as " Bristol South GLC Solar, LLC, ("the Project")", within a larger parcel at 3776 South 116 Road in Bristol (Span # 11247; Parcel# 110129000; coordinates 44°04'29.4"N, 73°05'25.6"W), currently owned by Helen and Allen Rathbun. Toward that end, the Developer, asked the Bristol Planning Commission at its meeting of November 20, 2018 for a letter of support for the proposed site in accordance with the Net Metering Rule 5.103, "Preferred Site," (7), clause 2.

The proposed site of the Project lies within the general area designated as 'Preferred' by the committee who are currently developing Bristol's Enhanced Energy Plan. The Planning Commission has reviewed the project and walked the site on 05/07/19. Given the current site conditions, we voted at our meeting, continued on 05/09/19, to support the Project location as a "Preferred Site" under Net Metering Rule 5.103, "Preferred Site ." (7), clause 2.

Please note that the Bristol Planning Commission takes no position certifying or approving the Project's compliance with any other applicable provisions of Vermont law. Our sole aim in this letter is to state our support for designating the Project location as a "Preferred Site" under Net Metering Rule 5.103, "Preferred Site", (7), clause 2.

Respectfully,

Katie Raycroft-Meyer, Chair  
Bristol Planning Commission

cc: Ralph Memia, Green Lantern Solar
