Shaping Our Future Together

January 29, 2020

Southern Windsor County Regional Planning Commission
Design Implementation Block Grant Round 2

Dear Review Board,

The Mount Abraham Unified School District (MAUSD) is pleased to express our enthusiastic support for the opportunity to move the School 1 & 2 Sub-surface Infiltration Chambers project forward to final design.

We appreciate this opportunity to work with the Town to help address a concern that affects this area of the Village and, ultimately, stormwater discharge into the New Haven River. This project, once implemented, will help reduce or eliminate sediment and stormwater runoff from leaving the property by capturing it to infiltrate into the ground, trapping sediment and pollutants from the impervious surfaces in the area. The infiltrations chambers' location under the playgrounds behind the school will provide the added opportunity to educate students about the importance of stormwater management, and could, perhaps, be a model for other school facilities.

Additionally, we are grateful to have input in coordinating this plan with the overall facility plans at Bristol Elementary School.

Please don't hesitate to reach out if we can offer any additional support, or should you need any other information.

Warmest regards,
