RE: 143 North Street Ability to Serve Confirmation

Dear Mr. LaRose:

We are in receipt of your request on behalf of your client, John & Michaela Wisell, recent purchasers of the former Ginsberg house at 143 North Street, for confirmation of the municipal water system's ability to provide an updated allocation of water from 490 gallons per day based on a 4-bedroom residence to 700 gallons per day to serve the property based on the following allocation:

Unit #1: 3 bedrooms@ 140 gpd/bedroom =	420 gpd
Unit #2: 2 Bedrooms@ 140 gpd/bedroom =	280 gpd
Subtotal	700 gpd

Total New Municipal Water System Flows = 210 gpd

Please accept this letter as confirmation that this service can be provided. The spring source is permitted at 568 gallons per minute (gpm) and is sufficient to meet current average daily flows of approximately 260,000 gallons per day. The source water is pumped to a storage reservoir with a usable capacity of 632,000 gallons. We expect no adverse effect on pressure, fire flows, or storage as a result of the proposed connection.

Please contact me if you need any additional information at 453-2410 or e-mail me at [townadmin@bristolvt.org](mailto:townadmin@bristolvt.org).

Sincerely,

Valerie Capels  
Town Administrator
