

Bristol Energy Committee
July 21 Meeting Notes

Present: Sally Burrell, chair, Richard Butz, John McCormick

1. **Window Dressers:** Sally reported the the project will take place on November 4-9. Leadership positions are filled and Sally and others are attending a training in Mooretown on August 3.
2. **Bristol Solar:** subscriptions are up to 85%+ and all new ones are on hold pending action by Town of Middlebury voters on a bond issue that would allow the town to purchase all remaining units. Closing is scheduled for September 11, construction to begin soon after and commissioning by the end of the year.
3. **Car Share:** Richard reported that Car Share does not have the capacity to station a pick-up truck in Bristol for members to use. Given insurance, maintenance and administrative concerns, the committee decided to drop the idea of making a pick-up truck available for residents.
4. Round Table:
 - Should the committee prepare a report re: consequences of Climate Change on Bristol? Richard will contact a member of Vermont's climate resiliency team at the Health Department he knows to see what resources are available.

Next meeting: 8/18 at 7:00pm on Zoom
