**Subject:** 5002 Bristol Water Department August 2021 PER Approval

Dear Town of Bristol and Green Mountain Engineering,

Thank you for submitting the Water Distribution System Preliminary Engineering Report (PER) dated August 2021 prepared for the Bristol Water Department (Water System) by Green Mountain Engineering. The Drinking Water and Groundwater Protection Division (Division) has completed its review of the document and **approves the PER**.

The Division agrees that the high level of water loss is a major concern and replacing the identified water mains is a critical first step in reducing unaccounted for water. The Water System is encouraged to move forward with water main replacement as recommended in Appendix C of the PER.

Sincerely,  
Willie
