**Attachments:** 2021.08.20 Order requesting information[96].pdf; 2021.08.31 Pet Response to HO 8-20-2021 Order[76].pdf

Valerie,

I hope you are well and that you have been able to enjoy some of these last beautiful summer days. I am writing to let you know that our Petitions for Certificates of Public Good for the solar and battery storage projects have progressed almost to completion.

You may remember that we included language in our filing to memorialize a request by the Planning Commission for a post construction site visit to assess whether any screening may be beneficial after the project is built. Unfortunately, due to recent changes at the PUC level, they let us know at the end of August that they are no longer willing to oversee post construction site visits as they have for past projects. That said, we remain committed to the agreed process with the Planning Commission, even in the absence of the PUC's participation. We do not believe this change in PUC procedures will impact our commitments to the Town and we remain committed to hosting the Planning Commission after construction. By way of background, attached is the PUC letter discussing their decision, as well as our response, which reiterates our commitment to the Planning Commission.

This email is purely to keep you and the town in the loop and no action is required. If there is anything else that we can do to be helpful, please let us know. The offer always stands to present updates to the Planning Commission, Selectboard, or host a site visit at anytime.

Best regards,

Nathaniel Vandal

Valerie,

I hope you are well. Attached are some PUC issued Orders relating to our battery and solar projects, which I wanted to share. I want to reiterate our offer to be a resource to you and your colleagues on the PUC process, so please let us know if you have any questions.

I also wanted to follow up to see who we should be in touch with regarding the Selectboard's request to work with your consultant to review the projects' design as it relates to the well water SPA. Is that Jill Marsono who you cc'd before, or should I follow up with Sprague? I would be happy to do as much of that outreach and coordination as possible if you can help point me in the right direction.

Best regards,

Nathaniel Vandal

Thank you very much, Leslie. I will share this info with folks.

Nathaniel and Chris did a very nice job last night.

Thanks,

--Valerie

**Subject:** Bristol Solar & Bristol BESS Storage Projects

Good afternoon, Valerie:

Nathaniel Vandal and Chris Cadwell asked me to forward along to you the proposed procedural schedule in the Bristol Solar and Bristol BESS Storage projects that we will be asking the PUC Hearing Officer to approve at tomorrow's scheduling conference. Also attached is the notice of intervention form that you can use if the Town of Bristol wishes to participate as a party. Please let me know if you need any assistance with the form or filing it with the PUC.

You do not need to be a party to receive filings and orders now that the PUC has an electronic filing system. (Hooray for a bit of progress!) If you'd prefer to go that route, let me know and I am happy to help you subscribe to the cases in that system, ePUC. In either case, the system works by alerting you by email that a filing has been made or an order has issued. The email includes a link that you click to download the document.

Please consider me a resource to you and your colleagues on the PUC process. Nathaniel and Chris will remain engaged with you and other town officials on the merits and technical details of the projects. Thank you for giving the projects some time last night at the Selectboard meeting.

Regards, Leslie Cadwell
