

In Remembrance of Karl Neuse

Friends:

I write to you again, too soon, to honor one of our own, “a local boy done good”, Karl Neuse. Karl was born and raised in Middlebury. He left briefly for his education (Northfield Mount Herman, Williams College, Georgetown Law School), but returned to Middlebury shortly afterward. He married his college sweetheart Diane, and settled in Middlebury to practice law, raise his family and participate in the public life of his hometown.

A big part of Karl’s public life was his service to ACRPC. Karl joined the regional planning commission in 1984 as an alternate and 1987 as a delegate. He served as our attorney and as chair when ACRPC wrote its first regional plan. He served on numerous committees, most recently the Act 250 Committee. In 2006, ACRPC honored Karl with our Bertha Hanson Distinguished Service award for his years of service to ACRPC and the Town of Middlebury. Karl served as a delegate from Middlebury to ACRPC for nearly 30 years, with brief interludes, only retiring in 2020 as COVID-19 and Diane convinced him to spend more time with his family and in their beautiful gardens.

About three weeks prior to his passing Karl stopped in to ACRPC’s office to say hello and pick up some information on electric vehicles. Karl was lively and in good spirits. We started speaking and Karl took our conversation on some wonderful tangents. His long-term memory was as sharp as ever. Each tangent lead him to another story about his life. He told me stories about his track career in high school and at Williams College (He was a super-fast miler!). He told me about courting his wife, Diane. He spoke about his law practice and of his children and grand-children and of their cross-country running. He spoke of his public service for Middlebury and at ACRPC. Several times, he stopped and choked back tears of joy and then continued to a new story. The last line of Karl’s Obituary notes, “You would find the biggest sparkle in his eyes when talking, talking, talking with whoever would listen about his grandchildren AJ, Max and Sam Hano and Mia, Elena, Thomas and Lucas Politano, or any story about his full life that he lived with no regrets.” (The full obituary is at <https://addisonindependent.com/obituaries/karl-w-neuse-80-middlebury>).

Karl valued the work that we do here at ACRPC and valued all of you as colleagues. I hope he blessed each of you with the sparkling gift of conversation about a full life lived well.

Best wishes to all,

-Adam Lougee

Emma is from Kentucky and a recent graduate of Bard college with a degree in Political Science. Emma will be serving our office and state this year as a Water Quality Planner. She will assist with coordinating and implementing water quality planning functions across watershed planning projects, including municipal stormwater and transportation, for member towns in Addison County. ACRPC's past ECO members have assisted in the MRGP Road Erosion Inventory, sought funding for water quality project permitting and design and supported a community effort to reclassify significant wetlands. Emma is eager to serve the Region by advocating for the health of Vermont's waters today and into the future.

Feedback Needed to Shape Future Economic Development Efforts

The Addison County Regional Planning Commission and Addison County Economic Development Corporation invite you to help shape future economic development efforts in Addison County and Vermont.

As you may know, we held a workshop on June 10th to solicit input and feedback from the Addison County community on a Strengths, Opportunities, Aspirations, and Results (SOAR) analysis of our region. The primary goal of this workshop was to inform the development of a Comprehensive Economic Development Strategy (CEDS) for **West Central Vermont**. It will also inform the next iteration of the Economic Development section of the **Addison County Regional Plan**.

To further both of these goals, we are asking for your continued engagement and guidance.

Please review **this updated draft SOAR document** (<https://tinyurl.com/6krtjtpd>), which was generated after our last workshop. If you have any feedback or suggestions, you can use this **short survey**: <https://forms.gle/rWmgSY4Bi8u4un5Z8> to share your thoughts on specific sections of the SOAR.

Public Meeting: ANR plan to invest \$100 million in water infrastructure projects

<https://anr.vermont.gov/content/agency-secretary-will-host-public-meeting-provide-details-100-million-available>

Thursday, October 7 from 4:00 to 5:00 pm

Agency of Natural Resources, Secretary Moore and her staff will outline ANR's plan to invest approximately \$100M of ARPA funds in a variety of water infrastructure projects. Speakers will discuss the types of funding available to towns, businesses, and individuals and provide information about regulatory requirements.

ARPA funding administered by ANR will primarily support water quality projects in five priority areas:

- 1.Pretreatment:** The removal of harmful pollutants in wastewater before discharge to a municipal sewer system.
- 2.Village Water & Sewer Infrastructure:**
Community sewer and drinking water systems in villages that currently lack such systems.
 - 1.Eliminating Sewer Overflows:** Helping eligible municipalities implement their plan to eliminate sewer overflows within their community.
 - 2.Treat Stormwater Runoff:** Help property owners of 3 or more acres of impervious surface (e.g. gravel, pavement, roofs) treat stormwater runoff
 - 3.Healthy Homes:** Help eligible mobile home parks and low-income homeowners repair or replace failed water and sewer infrastructure
