

# Munsill Avenue Sidewalk Scoping Study

Bristol is studying if a sidewalk can be installed along Munsill Avenue. We want your thoughts and feedback on how a sidewalk could best serve you, the residents of Munsill Avenue, and all who use the street to connect to family, friends, school, work and play.

Visit the project website: [tinyurl.com/MunsillStudy](https://tinyurl.com/MunsillStudy)

**We will be reaching out soon for your opinion, through public surveys and at public meetings. Stay tuned!**

In the process shown above, we're at Step 2, building on the Town's Step 1 bigger-picture planning already done. This Scoping Study focuses on planning, public input, and a closer on-the-ground look at this potential Munsill Avenue project area. When complete, the Town will have a crucial tool to decide whether to move on to Steps 3 & 4, to fund detailed construction plans, get permits, and build a sidewalk.
