Hi Valerie,

There was recently an Algaewheel system installed to treat the entire Village of Naples, NY and they were just recognized for advancing water protection in their area. I thought you may be interested in checking out the article: <https://www.mpnnow.com/story/news/2021/03/03/naples-mayor-recognized-advancing-lake-protection/6864677002/>

Here is another article with more videos: <https://foxrochester.com/news/good-day-rochester/new-wastewater-treatment-facility-in-naples-is-first-of-its-kind-in-nys>

Looking forward to meeting with you next week!

Best,
Alec

Hi Alec,

Excellent. We'll look for the Zoom invite.

Thanks!

Hi Valerie,

We work with Alan all the time and would love to have him be a part of the conversation. Tuesday, March 9th at 2:00pm works for all of us. Looking forward to meeting with you!

Best,
Alec

Hi Alec,

I would like Alan Huizenga from Green Mountain Engineering to participate, but he is not available this week. Would 2:00pm, Tuesday, March 9 work for you?

Hi Valerie,

Thanks for reaching out! At first glance, Algaewheel seems like a great fit for Bristol. We are evaluating the Sewer Evaluation you sent over and will get back to you hopefully by this afternoon on what a system might look like.

I'd love to set up a Zoom meeting with you, Algaewheel, and Champlin. Are you free tomorrow afternoon, say 2pm? If not, is there a better time for you?

Best,
Alec

Hi,

How would the Town of Bristol go about finding out if this treatment system would be appropriate for Bristol's community sewer system that serves 34 properties in the downtown? A goal is to upgrade the system to increase capacity and the number of properties served.

Thank you,

--Valerie

Algaewheel is Ready to Treat Wastewater in Vermont

Hi Valerie,

Algaewheel has officially been approved for use as an Innovative and Alternative Wastewater Technology in Vermont!

We are very excited to add Algaewheel to our repertoire of water and wastewater products. Algaewheel is a low touch wastewater treatment system that is great for developments, increasing capacity at existing plants, rural applications, campgrounds, and much more.

Whatever wastewater treatment situation that comes across your desk, we would love to be a part of it. Between [BioGill](#) and [Algaewheel](#), we can find a cost-effective wastewater treatment solution that is easy to maintain and will meet regulations.

Find out what else Champlin Associates offers at www.champlinassociates.com or give us a call at (802) 879-7136.

Algaewheel - Wastewater Treatment

Treat Wastewater Easier with Algaewheel

Algaewheel wastewater treatment systems are ideal for new plants, retrofits, polishing, lagoons, and side stream wastewater treatment applications. Algaewheel delivers treatment to surface, subsurface, or reuse quality effluent.

Algaewheel is Perfect for Industries such as:

Municipal/Rural

Developments-Residential/Commercial

Septic-to-Sewer

Schools/Universities

Rest Stops-Private/DOT

State Parks

RV Parks/Campground
