February 1, 2022

TO: TOWN SELECTBOARDS, VILLAGE TRUSTEES, AND MUNICIPAL MANAGERS

Please forward this letter to the appropriate road maintenance person in your municipality, as it contains information pertaining to centerline pavement markings on Class 1 and Class 2 highways.

The Vermont Agency of Transportation (VTrans) is required by 19 V.S.A Section 311 to mark all paved Class 1 and Class 2 highways with painted centerlines. VTrans contractors and staff will endeavor to mark all paved Class 1 and Class 2 highways with painted centerlines this season. The painting season runs from April 1<sup>st</sup> to October 31<sup>st</sup>, so please try to plan accordingly.

Be advised that centerlines on Class 1 and Class 2 highways are the only markings VTrans will be painting this year. This may represent a change from previous practice.

To schedule this work as efficiently as possible, VTrans needs to know which roads in your municipality are scheduled for repair and/or retreatment as early as possible. This will improve scheduling of equipment and help avoid unnecessary painting of roads prior to the scheduled resurfacing.

Email your schedule for repair and retreatment of Class 1 and Class 2 highways to the email address below as soon as possible. All questions during the painting season should be directed to this email.

[AOT.HWYConstructionStatewide@vermont.gov](mailto:AOT.HWYConstructionStatewide@vermont.gov)

Please include the Town Highway number, length of work to be done, beginning and ending locations to reference, and the anticipated completion date for all planned work. Additionally, plan to provide marking layout information and/or assistance for any road on which the centerline markings have been obliterated and the centerline markings are to be installed anywhere other than the center of the road.

Should you fail to inform us of your road repairs and/or retreatment schedules promptly, scheduling constraints may not allow us to return to stripe your road(s) after such work is completed. In this case, your municipality could be required to hire its own contractor to complete the pavement markings.

We appreciate your attention to this request and thank you in advance for your prompt cooperation.

Sincerely,

DocuSigned by:
