**Cc:** Bristol Town Administrator; Ian Albinson  
**Subject:** Fire Station Ceiling Repair

Hello BFD. Just want to take a moment and acknowledge and thank those who contributed to repairing the ceiling in the fire station apparatus bay. This in-house effort probably saved the Town \$1,200 to \$1,500.

I want to thank Nathan Booska for his efforts as he essentially completed the entire project from start to finish. Nathan transported the donated electric lift to the fire station required to reach the ceiling, installed the piece of sheet rock to include the taping, mudding and painting of it.

I would also like to acknowledge and thank Joel Bouvier for making the arrangements for the electric lift and the sheet rock donation from Martin's Hardware.

Last but not least, thank you Greg Swain, Caleb Rockwood and Kevin LaRose for volunteering to take care of the logistics of returning the 500 pound lift.

Thank you.  
-Chief
