**Work in Right-of-Way and Access Permit**

Describe project (including length, width & depth of proposed excavation)

In order to run electric to my new building, I would need to pull up 1-2 sections of sidewalk in front of the pole in the front of the house, excavate 36" down and 3-4 feet wide to bury electrical service. The plan would be to re-compact earth under side walk and replace the slabs that would be pulled up. If slabs are not recoverable I would re-pour replacement concrete.

Date of start of work 11/30/22 Date of completion 12/5/22
