To the Town of Bristol Selectboard:

Callie Brynn and family would like to plant a white oak in memory of Lauris Chamberlain on the town green in Bristol.

As Tree Warden, I approve of the planting, as the specimen (white oak) is hardy and aesthetically pleasing. I walked the green with Callie last week, and I determined that the best planting spot would be in the northeast section of the green. This spot would guarantee ample sunlight, and the tree would serve as a replacement for a nearby sugar maple that is in serious decline and will most likely need removal at some point.

The planting ceremony is scheduled for early May. Although I will be out of town for the Selectboard meeting on April 24, I will try to zoom into the meeting.

Thanks in advance.

John Swepston
