**Subject:** 5/22, Water Shut Off at Woodland Apartments & Firehouse Drive

Valerie, Susan and Brett,

Please note there will be a water shut off this Wednesday, 5/24, morning starting as early as 7 am, however maybe closer to 8 am once they are "set up" and lasting for several hours while the contractor on Firehouse drive repairs a valve installed on the watermain that services Firehouse Drive and Woodland Apartments. Please note, when we re-open the valve, we will have to flush air/water at the air release behind the fire station and just before Woodland Apartments. This should alleviate most of the air that enters the system. In addition, you and your tenants may notice a bit of air in the water once restored into the day on Wednesday.

I will send an email when the restoration is complete.

If anyone does not have water after that message goes out, please contact me at 802-922-1102.

Thanks,

Jill Marsano
