**Subject:** Upper Notch Trash

Good Afternoon,

I wanted to touch base with everyone about the trash on Upper Notch Rd. I know our office has tried some different tactics in the past to catch some of the people doing this and we haven't had much success with figuring it out. Earlier this week, a deputy went and looked through some things there and was able to find a name on some of it, so she will be getting issued a ticket for her part that we can connect her to. That being said, I know that leaves a whole lot of garbage sitting there still and doesn't fix the rest of the people continuing to bring their trash there. I know there's been lots of ideas tossed around about how to tackle this problem already, but we're happy to be a part of working toward whatever solution you come up with.

I also wanted to mention that the Deputies and I had a conversation a few weeks ago about finding a place to help out for Green Up Day, and I think this would be a good spot for us. What we were thinking of doing was coming by on Wednesday the 10<sup>th</sup> and bringing as much of the trash as we could to the top of the road. We don't have a way to transport it, but we could at least bag it up for someone from the town to come by to dispose of it. Thoughts? This is all volunteer on our part, so it wouldn't cost anyone anything. Just wanted to run it past in you all in case someone had Green Up Day plans for that area already. I know it's after the actual Green Up Day, but it was the only day I could pin down a big enough group.

Thank you,

Sheriff Michael Elmore
