WASTEWATER SYSTEM AND POTABLE WATER SUPPLY PERMIT

LAWS/REGULATIONS INVOLVED

10 V.S.A. Chapter 64, Potable Water Supply and Wastewater System Permit Wastewater System and Potable Water Supply Rules, Effective September 29, 2007 Chapter 21, Water Supply Rule, Effective December 1, 2010

Permit Number:	WW-9-0682-2		
Landowner:	D. Chad & Michelle S. Perlee		
Address:	75 Stonewall Drive		
	Bristol VT 05443		

PIN: RU04-0371 Town Tax Parcel ID# 20-51-62.4

This permit affects property identified and referenced in deed(s) recorded in Book 135, Page 520 of the Land Records in Bristol, Vermont.

This project, consisting of construction of 4 bedroom (70ccupants) single family dwelling on Lot 4=0.4 acres, to be served by municipal water and soil-based sanitary wastewater disposal system, located on Liberty Street in Bristol, Vermont, is hereby approved under the requirements of the regulations named above, subject to the following conditions:

1. GENERAL

- 1.1 The project shall be completed as shown on the following plans and/or documents prepared by Kevin Larose and listed as follows: Sheet 1 dated 3/1/11
- 1.2 The project shall not deviate from the approved plans in a manner that would change or affect the exterior water supply or wastewater disposal systems, building location, or the approved use of the building(s), without prior review and written approval from the Wastewater Management Division.
- 1.3 This permit does not relieve the landowner from obtaining all other approvals and permits as may be required from the Act 250 District Environmental Commission, the Department of Environmental Conservation, Water Supply Division – telephone (802) 241-3400, Water Quality Division – telephone (802) 241-3770, the Department Public Safety, Division of Fire Safety– telephone (802) 786-5867, the Department of Health, and local officials <u>prior</u> to proceeding with this project.
- 1.4 The conditions of this permit shall run with the land and will be binding upon and enforceable against the landowner and all assigns and successors in interest. The landowner shall be responsible for the recording of this permit in the Bristol Land Records within thirty (30) days of issuance of this permit and prior to the conveyance of any property subject to the jurisdiction of this permit.

- 1.5 By acceptance of this permit, the landowner agrees to allow representatives of the State of Vermont access to the property covered by the permit, at reasonable times, for the purpose of ascertaining compliance with the Vermont environmental and health statutes and regulations.
- 1.6 A copy of the approved plans and this permit shall remain on the project during all phases of construction, and upon request, shall be made available for inspection by State or local officials.
- 1.7 In issuing this permit, the Division has relied solely upon the licensed designer's certification that the design-related information submitted was true and correct, and complies with the Vermont Wastewater System and Potable Water Supply Rules and the Vermont Water Supply Rules. This permit may be revoked if it is determined that the project does not comply with these Rules.
- 1.8 No permit issued by the Secretary shall be valid for a substantially completed potable water supply and wastewater system until the Secretary receives a certification from a designer signed and dated, that states:

"I hereby certify that, in the exercise of my reasonable professional judgment, the installation-related information submitted is true and correct and the municipal water supply and wastewater system were installed in accordance with the permitted design and all the permit conditions, were inspected, were properly tested, and have successfully met those performance tests",

or which otherwise satisfies the requirements of §1-308 and §1-911 of the referenced rules.

- 1.9 This permit shall in no way relieve the permittee of the obligations of V.S.A. Title 10, Chapter 48, Subchapter 4, for the protection of groundwater.
- 1.10 Any person aggrieved by this permit may appeal to the Environmental Court within 30 days of the date of issuance of this permit in accordance with 10 V.S.A. Chapter 220 and the Vermont Rules of Environmental Court Proceedings.

2. WATER SUPPLY

2.1 The lot is approved for water supply by connection to the Bristol municipal water system. No other means of obtaining potable water shall be allowed without prior review and approval by the Division of Wastewater Management.

3. WASTEWATER DISPOSAL

3.1 The lot is approved for wastewater disposal by construction and utilization of the site-specific wastewater disposal system depicted on the approved plans. No other method or location of wastewater disposal shall be allowed without prior review and approval by the Division of Wastewater Management.

3.2 The on-site, subsurface wastewater treatment/disposal system herein approved shall be routinely and reliably inspected during construction by a Class 1 designer or a Type A or B licensed desinger shall, upon completion and prior to occupancy of the subject establishment, report in writing to the Division of Wastewater Management that the installation was accomplished in accordance with the approved plans and permit conditions.

Wastewater System and Potable Water Supply Permit #WW-9-0682-2 D. Chad & Micelle S. Perlee Bristol page 3 of 3

3.3 The wastewater disposal system herein approved shall be operated at all times in a manner that will not permit the discharge of sewage/effluent onto the ground surface or into the waters of the State.

3.4 The future wastewater disposal "replacement area" designated on the approved plans shall be held in reserve for the eventual construction of a replacement disposal system in the event of failure of the primary system. No construction, earthwork, or other activity shall be allowed within the replacement area which would diminish its natural suitability for such eventual use as a wastewater disposal site.

3.5 The wastewater disposal system was designed and the project is approved based on the anticipated daily volume of wastewater from 490 gpd. There shall be no expansion of the project or increase in occupancy beyond this basis of design without prior review and approval by the Division of Wastewater Management.

David K. Mears, Commissioner Department of Environmental Conservation
