Hello,

Thank you for submitting your application to the Implementation Track of the 2023 VOREC Community Grant Program. While we deeply appreciate your commitment to growing the outdoor recreation economy in your community, your project has not been selected to move forward in this grant round.

We received 127 applications requesting a combined total of more than \$21 million. All of the eligible applications moved through an extensive and competitive ranking and review process in the past two months; this process concluded yesterday. With \$6 million to award, the ranking committees had to recommend only a portion of the applications to move forward. Unfortunately, many high-quality projects were not selected to be funded.

Later this spring, we will be reaching out to all applicants with feedback specific to your proposal - thank you in advance for your patience while we compile this for everyone - but we wanted to let you know this status update as quickly as possible so you can explore other funding opportunities to support your work.

Thank you for the time and energy you put into developing your project and proposal.

Sincerely,

Lauren Pyle
