RE: Class 1 and 2 Town Highway Centerline Striping

March 6, 2024

Dear Municipal Official,

The Vermont Agency of Transportation (VTrans) is required by 19 V.S.A Section 311 to mark all paved Class 1 and Class 2 highways with painted centerlines. VTrans contractors and staff will endeavor to mark all paved Class 1 and Class 2 highways with painted centerlines this season. The **painting season runs from as early as April 15th with a completion date of October 11, 2024**, so please try to plan accordingly.

Please be advised that centerlines on Class 1 and Class 2 highways are the only markings VTrans will be marking this year.

To schedule this work as efficiently as possible, VTrans needs to know which roads in your municipality are scheduled for repair and/or retreatment as early as possible. This will improve the scheduling of equipment and help avoid unnecessary painting of roads prior to scheduled resurfacing.

Please email your schedule for repair and retreatment of Class 1 and Class 2 highways to the District Project Manager (PM) as soon as possible. In addition, all questions during the paving season should be directed to the Construction Contracts Manager. The Construction Contracts Manager for this painting season is **Demetrio Koloseus-Gagnon**. He may be reached at [aot.hwyconstructionstatewide@vermont.gov](mailto:aot.hwyconstructionstatewide@vermont.gov) or by phone: (mobile) **802-595-6527**.

Please include:

- Town Highway number,
- length of work to be done
- anticipated completion date for all planned work.

Additionally, please plan to provide marking layout information and/or assistance for any road on which the centerline markings have been obliterated and the centerline markings are to be installed anywhere other than the center of the road.

Should you fail to inform us of your road repairs and/or retreatment schedules promptly, scheduling constraints may not allow us to return to stripe your road(s) after such work is completed. In this case, your municipality could be required to hire its own contractor to complete the pavement markings.

Thank you for your attention to this request and thank you in advance for your prompt cooperation.

Sincerely,

VTrans Project Manager – District 5  
802-461-6556
