To the Bristol Selectboard,

The members of the Bristol Bicycle and Pedestrian Advisory Committee (BBPAC) are writing this letter to voice our support of the town's application for "*Bicycle and Pedestrian Infrastructure Improvements*" in the form of a sidewalk scoping study for the south side of West St. from Holley Hall to Maple St. We feel that for a variety of reasons—including the lack of safe crosswalk at Maple St.—this makes sense as a way of improving the town's safe walking infrastructure.

Submitted by Bristol BPAC Chairman,

A handwritten signature in black ink, appearing to read "Christian DaBica". The signature is fluid and cursive, with a prominent "C" and "D".

Christian DaBica
