Hi Kevin-

My sincere apologies for the delayed response. I've been juggling a lot lately with family and work commitments (this has been a contributing factor to my poor PC attendance for sure) and it's been a challenge to keep up with personal email. To respond officially, I've very much enjoyed contributing when I've been able to, but realistically, it's not responsible for me to stay on as a PC member at this point.

All the best,
Anna

Anna,

Checking in to see how things are. Looking back since January, we've only seen you twice at Planning Commission meetings.

Only once was there advance correspondence indicating an absence.

Your perspective is valued as part of the Commission. But regular attendance at meetings is necessary to provide that perspective.

Please let us know by November 11th of your interest to remain on the Commission.

Kevin
