Subject: Bristol trees

Ian,

I hear you are filling in as Valerie's replacement? I'm working to put out another RFP for a spring tree planting. As you may know, there is a lot of money out there for tree planting and therefore there is a bit of a pinch on tree nursery availability.

I was thinking of doing some "contract growing" with a local nursery. The idea is that we order trees from them now and then they grow them for us and plant them for us when we want them. This would involve a 2 phase RFP. One where we order and pay for trees now and then pay for installation at a later date. Is this something the Town would be comfortable with?

Thanks,
