Thank you. I have one observation/suggestion. In appendix B, page 3 Bulk Water Purchases by non-district users are only being charged \$100 for up to 10,000 gallons and \$4 for each additional 1000 gallons. This seems a little unfair to me because as a water district user, I'm charged \$5.50 for each 1000 gallons. I respectfully submit that myself and other members of the water district regularly support the water district by paying our quarterly fees. In my humble opinion, non-district users should expect to pay a premium for the use of our water. I would suggest that the non-district users pay \$1000 for up to 10,000 gallons and \$100 for each additional 1,000 gallons above the 10,000. Food for thought...

What is the Bench Application for and what are the tenets of the proposed water ordinance?
