

TOWN OF BRISTOL — MEMORANDUM

TO: Maple Street Residents and the Traveling Public
FROM: Greg Faust, Town Administrator
DATE: June 8, 2026
RE: Bristol West Water: Maple St Watermain Work, Local Only

The Bristol West water system project continues this week with watermain installation on Maple Street. Crews began work Thursday, June 4, and expect to be on Maple Street for most of this week.

Current work area:

Maple Street: Crews are installing the watermain working southward from Pine Street. The Town expects work to reach Pleasant Street by mid-week as an estimate, with construction continuing south from there. Munson may continue the watermain all the way to West Street.

Previously completed:

Taylor Avenue: Watermain is installed. A small crew will return later for tie-ins, saddles, and service connections.

Elm Street: Watermain is installed except for the eastern 200 feet near North Street. Munson will return to complete that section later in the project.

Traffic control plan this week:

Maple Street will be closed to through traffic block by block during active construction.

Traffic control personnel will be stationed on both ends of the street to assist local residents getting in and out.

Please follow all flagger directions and use alternate routes if you are not local traffic.

What to expect:

- **Hours:** 7:00 AM to 5:00 PM, Monday through Friday
- **Driveway access:** Maintained for Maple Street residents whenever possible, with minor delays as crews pass each property.

Questions or concerns can be directed to Greg Faust, Town Administrator, at TownAdmin@BristolVT.org.

Thank you for your continued patience as we improve Bristol's water infrastructure.
