Presentation by Patrick Benner, Bristol Automotive, for a request to assist in a land acquisition to expand his automotive business. Following his presentation, the committee asked several clarifying questions and request for additional information.

Patrick completed his presentation and answer questions. Patrick left the meeting at 7:30. RLF Committee went into deliberative session at that point. Upon exiting deliberative session, the Committee unanimously decided not to recommend moving forward with this request at this time as the purchased property will not be income producing for a period of 2-3 years at the earliest. Dan would call Mr. Benner and advise of the decision and advise him to reapply at the time he is ready to start the construction of the building.

Meeting was adjourned at 8:00 p.m.
