Re: Security/Street Light

Dear Town Manager:

I am reaching out to let you know that over the next year Green Mountain Power, with Efficiency Vermont financial support, will be exchanging your current leased security/street light to an LED light. This change will save you money and bring improved lighting. We have found that most customers prefer an LED light, as it's a whiter brighter light that uses less energy, is "dark sky compliant," and requires less maintenance that costs you less to lease. Once the lights have been changed to LED you will see a reduction of the lease price on your monthly bill.

If for any reason you **DO NOT** want us to change your current light, please contact me at 802-747-6889 or Brenda.spafford@greenmountainpower.com within 30 days of receipt of this letter. **If I do not hear from you within that time I will assume that you agree to the changeover to an LED light.** You need to do nothing if you wish to have the new LED light.

I hope you enjoy the reduced rates and improved light quality of your new LED Security/Street Light.

Sincerely,

Brenda Spafford, CEM BEP
Sr. Account Manager
